Hello, please change the paragraph to say:

Community involvement plays an important role in the Superfund process. EPA uses a number of different tools and resources to promote effective, on-going, meaningful community involvement. One such tool is a Community Involvement Plan. The updated Community Involvement Plan is now available at CTEC, EPAs Butte Office, and EPAs Helena Office.

Hi Bill,

Under "What's New" please remove the first paragraph and add the language and link to the Silver Bow Creek/Butte Area website.

Community involvement plays an important role in the Superfund process. EPA uses a number of different tools and resources to promote effective, on-going, meaningful community involvement. One such tool is a Community Involvement Plan. The updated Community Involvement Plan is now available at CTEC, EPAs Butte Office, and the Administrative Record.

Thanks
